

Are You Getting What You Think You Are?

What if's?	Average Competitor	Protection for Homeowner (\$10,000 Roof)		The Brinkmann Quality Difference
Material Defects	If within years 1-10 -Cost of shingles and installation only.	<u>Other Guys</u> 10 years? \$5,000.00	<u>Us</u> 50-years non-prorated \$ 10,000	The actual cost of removal, replacement, disposal, and cost of all necessary components to replace the entire affected roof area. ie: shingles, flashing, felt, nails, shingles, hip and ridge and penetration flashings, etc.
	If year 11?	\$2600.00	\$10,000 Actual cost	The actual cost of replacement. What will it cost to replace your roof in 20-years? Probably more than today and you're covered.
Windstorm?	With 4 nails per shingle and three tabs used at the starter – the system will not qualify for wind coverage. What is being used at the most critical area of your roof? Three tab shingles used as starter and hip/ridge come with a 60mph wind warranty and only a 25-year limited material warranty. Your roof is only as good as its weakest link.	60 mph?	130 mph	As outlined by GAF's wind warranty they will pay to replace or reseal affected area for up to 15-years against 130 mph winds. Our enhanced Hip/Ridge products enable the system to be covered by the same great warranty that the field shingles have backed by the Nation's largest roofing manufacturer.
Employee Injury?	Without workman's compensation a homeowner has no protection against injury of an employee on premises.	potentially not protected	protected	All of Brinkmann Quality Roofing Services's employees are covered by workman's compensation.
Property Damage?	Without a general liability policy, the homeowner could be left paying the bill for property damage. Request a copy of the certificate and call to make sure of proper coverage and status of policy. Certificates are available at Flea markets.	potentially not covered	protected	Brinkmann Quality Roofing Services has \$1million in General liability Coverage.
Roof Leak?	As stated, but normally 1-5 years. The average tenure of a roofing company in the United States is 18-months. What is a leak warranty really worth if the company is no longer around? Did you know that 95% of leaks are at penetrations and/or transitions. Did our competitor explain what they are doing at these critical areas to ensure performance? Ask them what a code lead jack is?	1-5 years?	10 years	Most complete re-roofs carry a 10 year warranty against leaks due to workmanship defects. We have one of the most respected warranty's against leaks in the business. We install fully adhered underlayment in addition to metal at the most critical transition on your roof. In addition we install code lead flashings at plumbing penetrations. Do you know what this means to you?
